Remarks of

BOARD of EDUCATION

of Town School District.

In submitting our annual report we are happy to bear witness to the general fidelity of our teachers, who have been diligent and untiring in their efforts and fully alive to the importance and responsibility of their work.

We believe that the progress compares favorably with that of any preceding year during the existence of the new school law.

We have endeavored to secure and retain consecutively the services of desirable teachers and have made no change in seven of the eight schools maintained during the year.

One of the principal elements that go to make a successful school is good discipline, and in this particular we think at no time have the schools maintained a higher standard than during the last year.

A few years ago no liabilities were reported but the district was owing nearly \$400.00 for school supplies and the Town of Plainfield for schooling Methodist Hill scholars for one year. We are pleased to be able to state however that these bills as well as all others against the district are paid and the school rooms are better equipped for the school work of another year than ever

before, the school supply bills for the next few years should be small.

We recommend the repair or sale of the Potato Hill school house, the condition of which will be stated at school meeting.

It will be necessary to raise about \$100.00 for the repair of other houses, but owing to the generous gift of the late Ira Copeland it will not be necessary to raise much if any extra money for the support of schools.

By looking over the Mont Calm school house carefully it was found to be in much worse condition than was expected and quite a sum of money was expended repairing it under the direction of A. M. Bucklin, about \$40.00 was also expended in grading and building fence at Cambridgeville under direction of V. M. Clough.

We again remind parents of the importance of visiting schools and seeing that their children are constant and punctual in their attendance.

Let the cause of Common Schools be the common ground where we shall all stand and work together without respect to political or religious difference.

With the best feelings and wishes for teachers, children, parents and townsmen, this report is respectfully submitted.

Specials

WE probably sell more Potato goods than any other manufacturer in this country. Why? Because—

WE always use the best materials.

WE employ the formulas that have proven a marked success regardless of the raw material market.

WE don't make the mistake of aiming solely at analysis, but

WE feed the Potato and we do it well, and the growers know it, and

WE get their orders.

SPECIAL NOTICE.

This Company is not now and never has been a part of any trust or combination of manufacturers. No outside Fertilizer Company or individual holds one dollar's worth of the stock of this company. The E. FRANK COE COMPANY is in all ways independent of all other houses in this line of business.

We make this explanation in response to inquiries and in reply to false statements that have been circulated with intent to injure our business.
